

# **Midea Counter Top**

Water Purifier

# Just the way you drink

A Versatile Counter Top Water purifier

# Features

## WATER TEMPERATURE

- Cold water
- Sparkling water
- Hot water
- Ambient water

## ADVANCED FUNCTIONS

- Pre-setting water volume
- UV barrier in faucet
- Filter replacement indicator
- Double water supply
- Easy internal sanitation

## EXCELLENT FILTRATION

- Carbon Filter with NSF Certificate
- 0.5 $\mu$ m tiny aperture

# Functions

 **Hot water :**  
Instant selection of  
**3 temperature levels,**  
from 50°C to 90°C

 **Sparkling water :**  
Instant selection of  
**2 levels** of Sparkling water

 **Water Outlet**

 **Cold water :**  
Instant selection of  
**4 water temperature levels,**  
from 6°C to 25°C

 **Filter replacement  
indicator**

 **Setting**

# Filter replacement indicator

Remind you to replace the filter

When the light is on,  
it means that you need to replace the filter

---

# Sparkling water

Get fresh sparkling water at your fingertips

Sparkling capacity (<10°C)	GAS CONC. (Vol/gas)
>3 <sub>lt/h</sub>	2.5 ~ 2.9

\* Can help reducing plastic bottles and cans from our planet.

# Pre-setting water volume by user for fixed water volume selection

## Principle:

You can set the amount of water you receive each time (such as setting the amount of water in a glass), and then each time you press the water button, you will automatically fill a glass and stop. (the amount of discharge is the same as the set value).

# UV Barrier in faucet

Static sterilization prevent the bacteria from contaminating the internal environment.

## Double water supply

You can refill the inner water tank or connect the water supply

Water tank

CO2 Cylinder

Filter

External CO2  
Cylinder connector

Water supply

### The principle of double sources:

There are two sources of water for different needs.  
Tap water can be used as a source of water.  
The water tank can be used as a source of water.

### The principle:

External / internal Filter and CO2 Cylinder.

# Self cleaning

Easy internal sanitation that users can do by themselves following the manual

**Press**

**For 10 seconds**

Water starts to rinse inside the water tank, cold tank and hot tank, Avoid bacteria from stagnant water for a long time and keep water fresh and healthy.

# Water Tray Design

Different height of water tray for different water demands

Small water tray for cups or glasses.

Water tray is big enough for bottles or jugs with capacities up to 2 liters
