Manual Customization

* Without Extreme Cold Technology, cold temperature setting is 5°C / 9°C / 12°C

Cooling Technology

XtremeTemp

COLD WATER CYCLING, CIRCULATING & COOLING EVENLY TO EXTREME COLD

Cooling the water while water circulating, helps cool down fast and evenly, provides lowest temperature to 3°C. The freezing cold water refreshes your cup of drinks.

3°C Extra Cold Water

HEAT INSULATION DESIGN, TEMPERATURE PROTECTION PREVENTING TEMPERATURE CROSS & HEAT LOSS

No worry of water not cold or hot enough. Independent water tank for cold, ambient & hot water avoids temperature cross and reduces heat loss to save more energy from heating and cooling.

FILTERING EVERY DROP, HEALTHIER FOR EVERY CUP OF WATER

The water filtration system filters the impurity in water and polishes the taste of the water, making the taste of water better than ever and helping to protect your health.

Optional Filtration System:

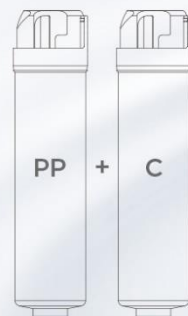

Reverse osmosis filtration

Ultra-filtration

Carbon-filtration

5-STAGE HIGH-PRECISION FILTRATION, PURITY IS ASSURED!

The filtration system removes heavy metals, viruses, bacteria, chlorines, large particles and dissolved solids from tap water, and improves the taste.
